- Marathi (Native)

PROFILE

Python Fullstack developer skilled in developing scalable APIs and web services using Python on Linux platforms. Passionate about open-source technologies and delivering efficient, high-quality solutions.

WORK EXPERIENCE

Encryptix

JUNE 2024 - JULY

Python Programmer

- Developed and deployed Python-based projects, focusing on efficient and maintainable code.
- Gained hands-on experience in Python libraries and frameworks to solve real-world problems.
- Collaborated on virtual tasks, enhancing skills in software development and remote teamwork.

Projects

2025 - 2029

TechStories Blog Site | [Link](#)

- Developed a responsive blog website using Django and React, with custom CSS for an attractive and user-friendly UI. Key features include:
- User Authentication: Secure login and registration functionality.
- CRUD Operations: Seamless creation, editing, and deletion of blogs.
- Category-Based Filtering: Enhanced user experience through dynamic blog categorization.

Recipe Site | [Link](#)

2024 - 2025

Robust CRUD Application: Designed and developed a dynamic application using Django and Django Rest Framework (DRF) to efficiently manage data.

- Implemented Create, Read, Update, and Delete (CRUD) operations with a focus on scalability and performance.
- Leveraged Django's robust ORM for seamless database integration and dynamic functionality.

EDUCATION

Master of Computer Application

2024-2026

Savitribai Phule Pune University

Bachelor of Computer Application

2021 - 20224

Dayanand College of Commerce,Latur | SRTMUN

Final CGPA: 8.19
