PROJECTS

PeopleTrack Service | Link

PeopleTrack Service is a fullstack web app built with Django and React.js to manage and track geographical profile locations.Includes interactive map visualization and complete CRUD functionalities for efficient data handling.

FullStack Blog Site | Link

Developed a fullstack blog platform using Django REST Framework and React.js with a modern, responsive UI and key features like auth, CRUD, commenting, and likes.
Integrated Markdown support, pagination, filtering, and search for enhanced content management and user experience.

Job Preparation Web App| Link

Designed and developed a responsive multi-page web app for job and interview preparation with secure login, resources, and coding challenges.Focused on clean UI/UX, interactivity, and mobile-friendly design for a seamless user experience.

Certificates :

Python Programming : Earned the Python Programming (Basic) Certificate from HackerRank.

JavaScript : Earned the JavaScript Intermediate Certificate from HackerRank.
