SKILLS

Languages -   Python , javascript , java(core) , Sql

Frameworks - Django , React , Tailwind Css , Node.js(core) , Html , Css

Databases -   Mysql , MongoDB , Postgresql

Tools -   Git , Github , Docker , Aws , Postman

EDUCATION

BCA | Dayanand College of Commerce Latur   CGPA - 8.19 | 2024

XII | Dayanand College of Commerce Latur   88.5% | 2021

PROJECTS

Credit Approval System |Demo

Developed a Django REST API for a Credit Approval System to manage customers and automate loan approvals based on business rules. Integrated PostgreSQL and environment-based configuration for secure and scalable deployment.

Blog Website | Demo

Developed a recipe sharing platform where real users can sign up, upload recipes with images, and explore others' dishes. Built with Django, Bootstrap, and SQLite focusing on clean UI and smooth user interaction.

TrackUsers | Demo

Developed a full-stack PeopleTrack app with React and Django for managing user profiles and locations using Google Maps. Features include login, CRUD, and live map-based data display.

Portfolio Site | Demo

Built a responsive portfolio using React and Tailwind to showcase projects, skills.

Achievements – **View** Python, SQL, and JavaScript certificates earned from HackerRank.
