[Github/@Vikass19](#) | [Leetcode/Profile](#) | [Linkedin/vikas-bansode](#) | [@Myportfolio](#)

**Profile Summary:** Full-stack developer with a strong understanding of software systems, APIs, and database workflows. Skilled in React, Java, and SQL, with hands-on experience building responsive web applications and integrating RESTful services. Focused on translating business requirements into effective technical solutions, collaborating with teams, and improving product usability and performance

## Skills

**Frontend:** React, Redux, HTML5, CSS, Tailwind CSS, Responsive UI

**Languages:** Java, JavaScript, SQL

**Backend & APIs:** NodeJS, ExpressJS, SpringBoot, REST API Integration, MongoDB

**Tools & Platforms:** Git, GitHub, Postman, npm, Webpack, AWS EC2

**Soft Skills:** Problem Solving, Logical Thinking, Communication, Teamwork  
Requirement Analysis

## EDUCATION

MCA, DY Patil Technical Campus, Talegaon, Pune | 2026

BCA, Dayanand College of Commerce, Latur | 2024 CGPA: 8.19/10

## PROJECTS

### Web Art Gallery | MERN Stack | [Link](#)

Built a web application to showcase and manage artwork collections. Developed secure REST APIs using Express.js and MongoDB for artworks and categories. Created a responsive React UI with dynamic image rendering, search, and filtering. Added authentication and an admin panel for artwork management. Optimized API queries and UI performance while collaborating with a team.

### BlogSite | React, Tailwind CSS, Google Sheets API | [Link](#)

Built dynamic, responsive interfaces using React components styled with Tailwind CSS. Connected Google Sheets API as a lightweight backend via async data fetching. Engineered category-based filtering with improved load-time efficiency. Deployed on Vercel for reliable performance and scalable delivery.

### GitHub Profile Finder | ReactJS, Tailwind CSS, GitHub API | [Link](#)

Built a ReactJS app with functional components & hooks for state management. Fetched real-time API data (repos, followers, bio). Created a responsive, mobile-first design ensuring cross-browser support.

## Achievements –

Completed **HackerRank certifications** in JavaScript, SQL, and Python.

Solved **55+ DSA problems** on LeetCode, focusing on problem-solving skills
